Designed by longboard veteran Jeff Tatum, the 37 inch Power Tool is another new addition to our growing Pool King family of decks. At 37 inches long it does not take much getting used to if you are coming off a standard size pool deck. The 19.5 inch wheel base makes this a stable ride and the 8 inch width is narrow enough to be very maneuverable in pools and parks. A great mid size deck for cruising streets, banks or parks. Check it out.
