The Pool King Underground Pop deck was originally made for Pool King team riders and was recently added to the Pool King line after many requests for it's public sale. The Underground Pop is peppered with the Pool King original crown logo on the bottom with an original Pool King logo on the top. The Pool King Underground Pop is 7.75" x 32" with a 6" nose and tail and a 14" wheelbase. Made in the USA of high quality, seven ply with medium concave. The famous Skate The Edge indoor skate park in Lincoln, Nebraska has chosen the Pool King Underground Pop as their official deck that features the Pool King logo and limited edition Skate The Edge art and logo available at their in-house pro shop only.
