"D.O.P.E. is produced by Car Angel (a non-profit organization dedicated to stopping teen age drug abuse) and features many famous skateboarding stars. With guest appearances by Christian Hosai and Jay Adams from Z Boys, this documentary hosted by Danny Trejo with theme song by POD will surely grab the hearts of young Americans who think that drugs can be messed with without consequences. Trailer was shot and produced by BSC and the documentary is directed by surf writer Chris Aherns."
