Last week, we told Newsflash readers about new wheels coming from Bennett and leaked the news about the Reflex Flywheels now shown in the forums. Now, how about a Silverfish wheel? It would have to be a longboard wheel to make even the cranky faux-core crack into grins...even utter the cry,"Stoked!"...

...and we think it is. Keep your eyes on the 'Fish. We don't have many of these things, they're pure sex, pure skate, pure stoke... 'Fish Balls !!!
