BOBBY MARTINEZ & CARISSA MOORE SIGN UP WITH FLEXDEX SKATEBOARDS CREATE THE "ENZO SKATE" SIGNATURE MODELS

San Diego, CA (January 8, 2008) — Flexdex Performance Skateboards is pleased to announce the exclusive signing of Bobby Martinez and Carissa Moore to create their signature model performance skateboards under the ENZO Skate brand. The new skateboards will be personally designed by these athletes — performance skateboards that bring the feeling of a wave or mountain to the street. Bobby and Carissa are stoked to get involved in every aspect of the design — shape, hardware and suspension, wheels and bearings, and graphic design — to offer the best possible ride to boarders worldwide. ENZO Skate decks by Flexdex will be produced using the latest unbreakable composite plastics.

ENZO Skate is a National Sponsor of the NSSA honoring the system that developed these athletes. ENZO Skate is also a sponsor of WaveWatch.com.

Design and production will begin in February 2008 with shipments May 1, 2008. ENZO Skate products will be distributed worldwide.

Flexdex Performance Skateboards, formed in 1995, has designed and produced performance skateboards with Kelly Slater, Wingnut, Tim Curran, Kalani Robb, Jim Rippey, Surf Diva, Cara-Beth Burnside, The Warped Tour, and X-Games.

About Flexdex

Flexdex products are produced by Flexdex, LLC in San Diego, CA. Flexdex® material is an engineered unlaminated fiberglass composite utilizing 6 different resins and fiberglass. Our boards will never delam, break, or die…ever. 30% more energy is transmitted to the wheels than wood decks. Our decks flex and twist with torque - turning sharper and accelerating through each turn. A flexdex® absorbs road vibrations - you can skate longer and harder. You tilt a wood deck to turn it. You DRIVE and CARVE a flexdex®. The harder you drive, the tighter you carve.
