We are old school to the core! In the 1970s we were working at one of the biggest surf/skateboard factories in SoCal. Then in the early 1980s heading up a skate shop in PB! As well as running the Zorlac factory/team in the late 80s.. We have a real good idea what an old school skateboarder from any part of the planet would like to have under their feet. We lived it and still love it...We collect it...and now we have it to share! We will continue to add cool products to our awesome line up of skateboards. Our motto is: Customer Service is KEY!
