Orangefiist (the crew behind both the amazing footage tease from Maryhill '07 and the groundbreaking documentary 'Livin Free) are set up to do what they do best: shoot amazing high quality footage and deliver it in mesmerizing, truer-than-life quality. To get more support for the project they are reaching out to the community to help deliver their vision, get involved, give them money. They are in a position to deliver what we all know can be amazing video content to a new audience. This could do more for the notoriety of downhill racing than just about anything else we can think of.

Manufacturers & Shops: Sponsor the 2008 Maryhill Festival of Speed Movie!

Hello, my name is Marc McCrudden with Orangefiist. We're excited to announce a new 1 hour HD Documentary that we will be producing at the 2008 Maryhill Festival of Speed. Our Doc will highlight downhill skateboarding athletes and their love for the sport. We are planning on shooting on the Red Camera in 4k(4x's HD and capable of 120fps) with 35mm film lenses.

While the time and dollars associate with producing this documentary are many, we at Orangefiist pride ourselves on our efficiency and are adept at completing jobs on budget. We want every company associated with the 2008 MFOS to have a strong, positive representation in our documentary. We also need help from sponsors with pinpointing the athletes you want to shed light on. Whether it's an up and coming young rider you've added to your team this year or a rider with a unique story, you as the sponsor gain considerable value by helping us shed light on riders that illuminate your brand image.

Last year we produced a free 15 minute Mini-Doc that you can view here: <http://www.orangefiist.com/OrangeFiistMovie2.htm>.

Our goals for the film include:

- Finishing it in time to submit to the 2008 X-Dance Film Festival.
- Distributing it on DVD and/or video download through our Orangefiist.com website.
- Distributing it on DVD and/or video download via any sponsor website.
- Distributing it through our network of retailers.
- We are also open to holding screenings in conjunction with any sponsors events.

The response we've had to the free 15min Maryhill mini-doc we produced at last years MFOS has been incredible and we know that this year's film will continue to shine a captivating light on the sport of downhill skateboarding and its athletes. We are offering three sponsorship packages in the form of Film Credits that coordinate the title, name, and position your company logo appears during the opening credits of the documentary. The higher the film credit you choose the more coverage we dedicate to your brand/athletes. The order of each film credit category is determined on a first come first serve basis. The Film Credit and price point for the sponsorship levels are:

Executive Producer: \$1500 - We're selling three Executive Producer Credits

Producer: \$1000 - We're selling three Producer Credits

Co-Producer: \$750 - Depends on demand

We accept all Major Credit Cards, Checks, Paypal.

Please email me directly with any questions, ideas, athlete details, and help us make grow the sport!

Sincerely,

Marc McCrudden

PS:

Orangefiist would also like to announce that we've licensed our DVD 'Livin' Free: The Heart of Longboarding,' to RSN for a year. The film will air in two formats, as a half hour show called Extreme Scene and as a 3 minute piece within a half hour show called Reel Thrills. The deal also includes 3 separate, 30-second advertisement spots, valued at \$4000 each.

These adverts will air anytime 'Livin' Free' airs and at random throughout the year of the license. It is my responsibility to sell these spots and is an additional form of revenue for Orangefiist in addition to our license fee. Any support you give us will be put directly into this year's Maryhill Festival of Speed 1 hour Documentary where we will be covering the event with our new Red Cameras. This is a great opportunity to advertise your products and athletes. Below I have included a list of RSN's Distribution Coverage Areas which well target those in the Longboard community.

Please let me know if you'd like to increase your products exposure and participate either in whole or in part of these 30second advertisements? If you have content, need content, or just want to include your logo as part of the program sponsorship list please contact me and we will figure something out. Please ask us any questions you may have.

Thanks, Marc McCrudden
