Comes now the heralded IGSA, reporting herein the Go Fast! Speed Days, '08, from jolly old England.

Go Fast Speed Days '08

For the full text, read Concrete Wave magazine, Holiday '08 edition. Oh, you're too cheap to subscribe to the only mag that covers skateboard racing at all? It's too far to skate over to the only bookstore in your town that sells CW, so you can poach a view and then put it back with the pages stuck together? Well then, navigate thyself yonder to your gracious hosts' CW Downloads area and ready your sorry ass to receive bequest of the article in PDF format. Being a cheapskate, you already know you can view it in hi-res with the free PDF viewer from Adobe, but we didn't need to tell you that.
