It's a proven scientific fact that 37.6% of Concrete Wave readers find the 'Fish Report to be the most amazing part of the entire magazine. "It's like, amazing, eh!", responded one reader to an inquiry by the respected Pew Center for Media Review. All we can say to that is, like, well, yeah! Does any of this make any sense, at all? We're so over it. Did you hear that if you take the bearing covers off, your wheels spin faster? How's that help net the Red Poontango?

The 'Fish Report Spring '09

Yep, here it is in full format, downloadable as a PDF and in a version that includes all the letters. (Didja notice our print version? The intarwebz say yer brain fillins in missing letters. Did it?) Free range soy ink, baby. Click to it in the CW PDF files section. Look for upcoming reviews of the skatepark shown above under Alva's wheels (Fillmore, Calif.) and other such summer fun. In the meantime, go freakin' skate! Jiminy Crickets, Marge!
